510(k) SUMMARY

Date:

November 6, 2002

Manufacturing Facility:

APPRO Healthcare, Inc.

847 Main Street Buffalo, NY 14203

Telephone:

(716) 855-1068

Contact Person:

John R. Semler

Vice President, RD&E

Extension 309

Email: jrsemler@approhealthcare.com

Device Trade Name:

PrepareTM Administration Set

Device Common Name:

Administration Set

Classification Name:

Intravascular Administration Set

Regulatory Reference:

FPA

Predicate Device

CADD® Administration Set

Description:

Prepare[™] Administration Set is designed for use with Deltec CADD®-1, CADD®-Plus, and CADD®-PCA pumps. The device provides the interface with the pump and a sterile fluid path from an infusion fluid container to a patient's access catheter.

Intended Use / Indications for Use:

Prepare[™] Administration Set is intended for the administration of various medical solutions from a fluid container to the patient's access catheter, and is used only with Deltec CADD®-1, CADD®-Plus, and CADD®-PCA pumps. Intended for intravenous, intraarterial, subcutaneous, epidural, and subarachnoid administration.

PrepareTM Administration Set is indicated for use in acute and alternate site care settings. Alternate site care includes, but is not limited to, infusion clinics, nursing homes, and home healthcare.

Physical/Technical Comparison

Prepare[™] Administration Set can be used in place of CADD® Administration Set. Physical and technical characteristics, including materials used in construction, size, intended use and ability to interface with specified CADD® pumps, are comparable.

Performance Summary:

The device and the predicate were subjected to various bench tests to demonstrate comparable performance characteristics. PrepareTM Administration Set's accuracy of delivery, volume delivered per pump cycle, and fit to pump are substantially equivalent to the CADD® Administration Set.

Biocompatibility Testing:

PrepareTM Administration Set device was subjected to biocompatibility testing as recommended by ISO-10993-1, Biological Evaluation of Medical Devices Part 1: Evaluation and Testing. The device is certified as non-irritating, non-cytotoxic, non-toxic, non-hemolytic, and non-sensitizing.

Sterility:

Prepare[™] Administration Set is sterilized by ethylene oxide gas in a validated sterilization process.

Re: K023769

Trade/Device Name: PrepareTM Administration Set

Regulation Number: 880.5440

Regulation Name: Intravascular Administration Set

Regulatory Class: II Product Code: FPA

Dated: November 6, 2002 Received: November 12, 2002

Dear Mr. Semler:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4618. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html

Sincerely yours

Timothy A. Ulatowski
